

If you or your loved one were just told that you need hospice care, you may feel overwhelmed. You are probably wondering what's next.

We understand, and we can help. At Continuum Care Hospice, we are passionate about providing the care you and your family deserve during this time of need.

This passion is based upon our belief in the sacred dignity of human life and the importance of respecting the creed and philosophy of every individual.

With Continuum Care Hospice, you are not alone. We are here for you.

Our Family Caring for Yours

## What is Hospice

Hospice brings compassionate care and support to those diagnosed with life-limiting illnesses. The hospice team is specially trained to provide patients and families with support and services through and beyond the end of life. With the emphasis on comfort, families are able to spend time simply being together.

Hospice is not a place, it is care that can be provided where and when it is needed. Care is available in private homes, nursing facilities or assisted living residences. Our hospice team is available around the clock to help manage changes in conditions or needs.

When you are asked to consider hospice, please call us. Our first step is to listen to you and learn about your care goals. Whether your goal is to have less pain or to attend an upcoming family function, we will work with you to develop a plan of care to meet your needs. You will have access to a hospice care support team which may include:

- Physicians
- Registered nurses
- Non-denominational spiritual counselor
- Social workers
- Hospice aides
- Volunteers
- Physical, occupational and speech therapists
- Bereavement coordinator

## Why Choose Continuum Care Hospice

Continuum Care Hospice is dedicated to treating each person as an individual with unique needs and goals. A life-limiting illness does not have to impair the way you live your life. Your professional hospice team works with you, your physician, and those close to you to customize a plan of care that meets your specific medical, social, emotional and spiritual needs.

Your Continuum Care Hospice team is available 24/7 to provide individualized care so you can live life as fully as possible.

Our experienced team will assist you with:

- Pain and symptom management
- Patient and caregiver education
- Emotional support for you and your family
- Obtaining medication and medical equipment/supplies
- Family bereavement support for over a year
- Access to a 5-star facility for respite care

## What You Can Expect

Our team will work with you so you can spend your time in ways that you find meaningful and important. Our staff will also help you transition to other levels of care if your needs change over time. If you are in a nursing facility or assisted living center, our care team will work with the facility staff to ensure that your goals are respected and your care plan is followed.

Continuum Care Hospice is Medicare/Medicaid certified and offers comprehensive hospice care in Northeastern Ohio. The hospice benefit is covered completely without copays by Medicare and Medicaid. We also accept most private insurance plans that offer hospice benefits. If you have questions about a specific plan, please call our staff for more information.

For more information about our services or to schedule a **no obligation** informational meeting, please contact us at **248-782-2220** or email [hospice@lhshealth.com](mailto:hospice@lhshealth.com).
